The solution

We worked with the customer and his interior designer to create this design.

Featuring textured wood and matt grey, the space is warm and inviting. Solid wood, quartz and Tier wall cladding from Global Stone add layers of texture.

I've now got a modern and homely kitchen. I love it.

Space has been used really well with loads of storage and seating. It's the perfect space for cooking and entertaining.

It worked well for me having Living Spaces manage the whole project. Vicky worked with my interior designers and came up with great design solutions, and I didn't have to worry about managing the project.

Sean McCarthy

The customer went for NEFF Slide&Hide® oven. The over door disappears under the oven cavity.

This allowed us to maximise space in the kitchen.

Meet the Designer

Victoria Anderson

Experience: **16 years**

Based at: **Lymington**

Favourite colour:

Dark navy blue – it's calming and elegant

As well as heading up the Living Spaces team, Victoria leads on numerous design projects across the region.

"Refurbs are my favourite. It's really satisfying when the project is finished as you have created a completely different room.

"My style is quite eclectic. It comes from my love of pattern and mid-century design. I have always been drawn to Islamic patterns which use colour, foliage, flowers and symmetry."
